## Statement of Qualifications

# CMC Project Solutions, Inc. - Your Trusted Partner for Strategic Project Controls and Enhanced Project Outcomes

CMC Project Solutions, Inc. provides comprehensive project controls solutions, leveraging deep expertise to ensure the successful delivery of complex projects across a diverse range of industries. Founded in early 2020, our firm is committed to providing practical, results-oriented services that empower our clients to achieve their project goals through informed decision-making, proactive risk management, and efficient resource utilization. We strive to be a trusted partner, integrating our specialized knowledge seamlessly with your team to enhance your project's performance and predictability.

## Core Expertise Driving Project Success:

Our team's collective experience encompasses the full spectrum of project controls, enabling us to provide strategic support in the following critical areas:

- **Advanced Project Scheduling and Analysis:** We develop robust, logic-driven schedules using Critical Path Method (CPM) techniques. Our services include baseline schedule creation, regular updates, progress monitoring, critical path analysis, resource leveling, and detailed schedule analysis to identify potential risks and opportunities for optimization. **Value:** Provides a clear roadmap for project execution, enables proactive management of timelines, and improves resource efficiency.
- **Comprehensive Cost Management:** We offer expertise in cost estimating, budgeting, forecasting, cost control, and variance analysis. Our team helps clients establish realistic budgets, track expenditures, identify potential cost overruns, and implement effective cost management strategies. **Value:** Ensures projects remain within budget, provides financial transparency, and enables informed financial decision-making.
- **Proactive Risk Management and Mitigation:** We facilitate the identification, assessment, and prioritization of project risks. We work collaboratively with your team to develop effective mitigation strategies and contingency plans to minimize potential

disruptions. **Value:** Enhances project resilience, reduces the likelihood and impact of negative events, and improves overall project predictability.

- **Strategic Contract Administration and Management:** We provide support in contract administration, including the review and management of contract documents, change order management, claims analysis, and ensuring compliance with contractual obligations. **Value:** Minimizes contractual risks, ensures fair and equitable contract execution, and helps avoid potential disputes.
- **Expertise in Delay Claims and Forensic Schedule Analysis:** Our team possesses the expertise to analyze project delays, perform forensic schedule analysis, and provide detailed reports to support or defend against delay claims. **Value:** Protects our clients' interests in the event of project delays and provides the necessary documentation for dispute resolution.
- **Efficient Document Control and Management:** We establish and implement effective document control systems to ensure accurate and timely access to critical project information, fostering collaboration and minimizing potential errors. **Value:** Improves communication, reduces errors, and ensures a clear and auditable project record.
- **Strategic Business Intelligence (BI) Reporting Development:** We offer comprehensive BI reporting development services, including back-end integrations with various data sources and the creation of insightful and user-friendly dashboards. **Value:** Provides clients with enhanced visibility into project performance data, facilitates data-driven decision-making, and improves overall project oversight.

### Experience Across Diverse Industries:

CMC Project Solutions has a proven track record of successfully delivering project controls solutions for a significant number of projects across a wide range of sectors:

- **Energy and Utilities:** Our firm has provided comprehensive project controls services for **over 15 EPC Solar Projects**, including scheduling, cost control, risk management, and project management support from inception through commissioning. We have also supported numerous other utility projects involving transmission and distribution infrastructure.

- **Infrastructure and Municipality:** CMC Project Solutions has a strong history of working on public infrastructure projects, including **over 12 Caltrans projects**. Our experience encompasses highway and bridge construction, providing expertise in scheduling, contract administration, and project controls oversight. Additionally, we have supported numerous other municipal infrastructure projects, including water and wastewater facilities.
- **Commercial and Residential Development:** We have provided project controls expertise for **over 20 Private Commercial Projects**, including office buildings, retail spaces, and mixed-use developments. Our services have included cost estimating, scheduling, and progress monitoring to ensure successful project delivery.
- **Theme Parks and Entertainment:** Our team has contributed to the successful execution of **8 Disneyland projects**, providing specialized project controls support for attraction development, infrastructure upgrades, and facility expansions.
- **Additional Experience:** Our experience extends to other sectors, including industrial facilities, federal and local government projects, and various specialized construction initiatives.

This collective experience demonstrates our adaptability and capability to provide effective project controls solutions across a diverse range of project types and complexities.

### **Our Services: Tailored to Your Project Needs:**

CMC Project Solutions offers a comprehensive suite of services designed to meet your specific project requirements:

- Oracle Primavera P6 EPPM and Unifier Implementation and Support
- Project Scheduling Services
- Cost Estimating and Forecasting
- Performance Measurement and Reporting
- Contractor Schedule Reviews
- Change Order Management
- Risk Management and Contingency Planning
- Delay Claims Analysis and Forensic Scheduling
- Project Controls Consulting and Advisory Services

## **Our Approach: Collaborative and Results-Oriented:**

We believe in working collaboratively with our clients, integrating our expertise seamlessly with your existing team. Our approach is results-oriented, focused on providing practical solutions that deliver tangible value and contribute directly to the successful outcome of your projects. We are committed to understanding your specific needs and tailoring our services to meet those requirements effectively.

**NAICS Codes:** 541611, 518210, 541618, 611420, 611430, 541512, 541513, 541519

**SIC Codes:** 8742, 7379, 7373, 8748

**Software Proficiencies:** Oracle Primavera P6 EPPM, Oracle Primavera Unifier, Primavera Analytics, Microsoft Power BI, ESRI ArcGIS, InEight Estimating, Synchro 5-D Modeling Software.

**Membership/Affiliations:** Active member of the AACE International (Association for the Advancement of Cost Estimating International).

**Presentations and Publications:** Our team members actively contribute to the advancement of project controls through presentations and publications on key industry topics.

CMC Project Solutions, Inc. is dedicated to providing strategic and practical project controls solutions that drive optimal project outcomes. We are confident that our expertise and collaborative approach, demonstrated through our experience on significant projects, will bring substantial value to your organization. We look forward to the opportunity to discuss your project needs and how we can partner with you for success.
